Sponsorship Info

SUSTAINABLE JERSEY® is a certification program for municipalities in New Jersey that want to go green, save money, and take steps to sustain their quality of life over the long term.
Sustainable Jersey:

- Identifies concrete actions that municipalities can implement to become "certified" and be considered leaders on the path to a sustainable community.
- Provides clear "how to" guidance and tools to enable communities to make progress on each action.
- Provides access to grants, and identifies existing and new funding opportunities for municipalities to make progress toward the actions.
- Encompasses the 3 equal, interrelated components of sustainability:
 - Prosperity - support your local economy and use community resources
 - Planet - practice responsible environmental management and conservation
 - People - embrace social equity and fairness
